

A Day at the
DAYCARE
with
Mr. FunWater

It is the morning. It's raining a lot.
We cannot see the sun behind the clouds.

**In the daycare,
the children watch
the rain falling
outside.**

**Suddenly,
Mr. FunWater appears
among the drops
sliding on the window.**

Sam sees him!

Waving his hand,
Mr. FunWater asks
if he may enter.

Sam asks his educator
Myriam to open
the window.

This allows Mr. FunWater
to enter the daycare.

It is already noon. The children have played a lot and they are very thirsty.

Mr. FunWater bounces in all the friends' glasses to make the water nice and cold!

All the children drink their glasses of water and ask Myriam for more.

It makes them feel so good that they jump with joy. Mr. FunWater is delighted.

It's nap time. While the children are sleeping, Mr. FunWater makes a flying carpet appear and opens the window.

All the children, still lying on their mattresses,
fly away after the flying carpet.

Once in the air, in the middle of the clouds, they wake up amazed. Mr. FunWater takes the opportunity to show them forests, rivers, fields, and his beautiful garden.

In the garden, children are allowed to pick fruits, vegetables, and herbs of their choice to create a water recipe.

It's already the end of the journey, and Mr. FunWater takes everyone back to the daycare.

As if by magic, fruits, vegetables, and herbs appear in the glasses of water placed near them. Mr. FunWater has concocted their favorite flavored water recipe!

Myriam and the children enjoy their flavored water prepared by Mr. FunWater. It is so refreshing and tasty!

Outside, a rainbow appears, and a smiling Mr. FunWater leaves towards the sun. They hope that Mr. FunWater will come back to visit them, and toast to this beautiful day: *Tchin-tchin!*

The book *A Day at the daycare with Mr. FunWater* is an initiative of the *Mr. FunWater Challenge* as part of the *I'm Thirsty for Health!* Campaign. Developed by the Quebec Weight Coalition (Coalition Poids), an initiative of the Association pour la santé publique du Québec, the *I'm Thirsty for Health!* Campaign aims to promote healthy hydration by encouraging, normalizing, and valuing consumption of water. The campaign proposes simple actions to improve our living environments, to encourage the adoption of healthy hydration habits that will contribute to sustainable health for all.
